Knitted

Flexible Texture · Crafted Comfort

Soft & Flexible Construction
Knitted construction offers natural flexibility and a relaxed hand feel, delivering comfort with a crafted textile character.

Distinctive Textural Appeal
Different yarns and knit structures create rich surface textures, adding depth and individuality to each product.

Versatile Design Possibilities
Various knitting patterns support classic, contemporary, and trend-driven styles across a broad range of home collections.

Comfort Meets Style
Tactile comfort and decorative texture combine to create versatile throws and coordinating accessories for modern living spaces

Care Instructions

Machine Wash
Gentle Cycle: Use cold water and a gentle cycle where permitted by the care label.

Low Heat or Gentle Drying
Use low heat or the recommended drying method to help maintain shape.

Do Not Bleach
Avoid bleach and harsh cleaning agents.

Avoid Stretching
Handle gently when wet to help maintain the knitted structure.

Care Tips
Avoid pulling or snagging the knitted surface. Store folded rather than hanging to help maintain the product shape.

Decor Pillow

Model No. DP6I

Soft Cozy Fluffy Knit Reversible Décor Pillow

Fabric Composition 100%polyester Knitted
Fabric Weight (GSM) Varies by yarn type or size.
50"x 60"

Made with Care. Built on Responsibility.

We believe better home textiles begin with responsible choices.

From material selection to manufacturing, we continuously pursue solutions that balance quality, comfort, performance, and environmental responsibility. Through recycled material options, responsible production practices, and recognized textile standards, we help our partners develop products designed for today's evolving market.

OEKO-TEX® STANDARD 100

Products carrying the OEKO-TEX® STANDARD 100 label have been tested for harmful substances according to established criteria. The certification covers textile components and helps ensure that certified products meet strict requirements for human health and product safety.

RECYCLED 100 claim standard ©TextileExchange

The Recycled Claim Standard (RCS) verifies the presence and amount of recycled material in a product. It provides chain-of-custody requirements to track certified recycled materials from their source through the supply chain, supporting greater transparency in recycled material claims.

FSC

FSC® certification supports the responsible sourcing of forest-based materials. Certified wood, paper, and pulp come from responsibly managed forests and other controlled sources, helping promote responsible forest management while supporting environmental, social, and economic considerations.

Global Recycled Standard ©TextileExchange

The Global Recycled Standard (GRS) verifies recycled content and tracks certified materials throughout the supply chain. It also includes requirements related to responsible production practices, including environmental management, social criteria, and restrictions on the use of certain chemicals.
