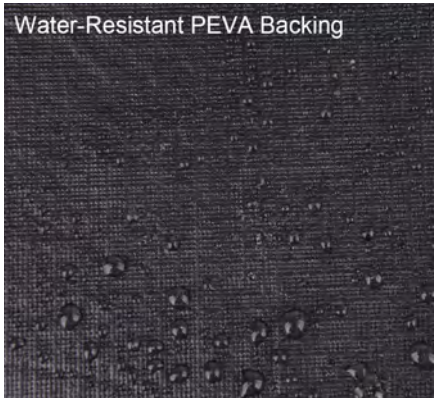
Throw: 50"x60" / Stocks: 7"x7" / Mug: 3.35"Diax3.62"H



Shower Curtain

Everyday function
with effortless style.

Waffle Texture

Bathroom Essential

Easy Care

Clean Minimal Look

Model No. ST00

Waffle Fabric Shower Curtain

Fabric Composition 100% Polyester

Fabric Weight (GSM) 85~250gsm,Varies by yarn type or size.

71"x74"

Made with Care. Built on Responsibility.

We believe better home textiles begin with responsible choices.

From material selection to manufacturing, we continuously pursue solutions that balance quality, comfort, performance, and environmental responsibility. Through recycled material options, responsible production practices, and recognized textile standards, we help our partners develop products designed for today's evolving market.

OEKO-TEX® STANDARD 100

Products carrying the OEKO-TEX® STANDARD 100 label have been tested for harmful substances according to established criteria. The certification covers textile components and helps ensure that certified products meet strict requirements for human health and product safety.

RECYCLED 100 claim standard ©TextileExchange

The Recycled Claim Standard (RCS) verifies the presence and amount of recycled material in a product. It provides chain-of-custody requirements to track certified recycled materials from their source through the supply chain, supporting greater transparency in recycled material claims.

FSC

FSC® certification supports the responsible sourcing of forest-based materials. Certified wood, paper, and pulp come from responsibly managed forests and other controlled sources, helping promote responsible forest management while supporting environmental, social, and economic considerations.

Global Recycled Standard ©TextileExchange

The Global Recycled Standard (GRS) verifies recycled content and tracks certified materials throughout the supply chain. It also includes requirements related to responsible production practices, including environmental management, social criteria, and restrictions on the use of certain chemicals.
