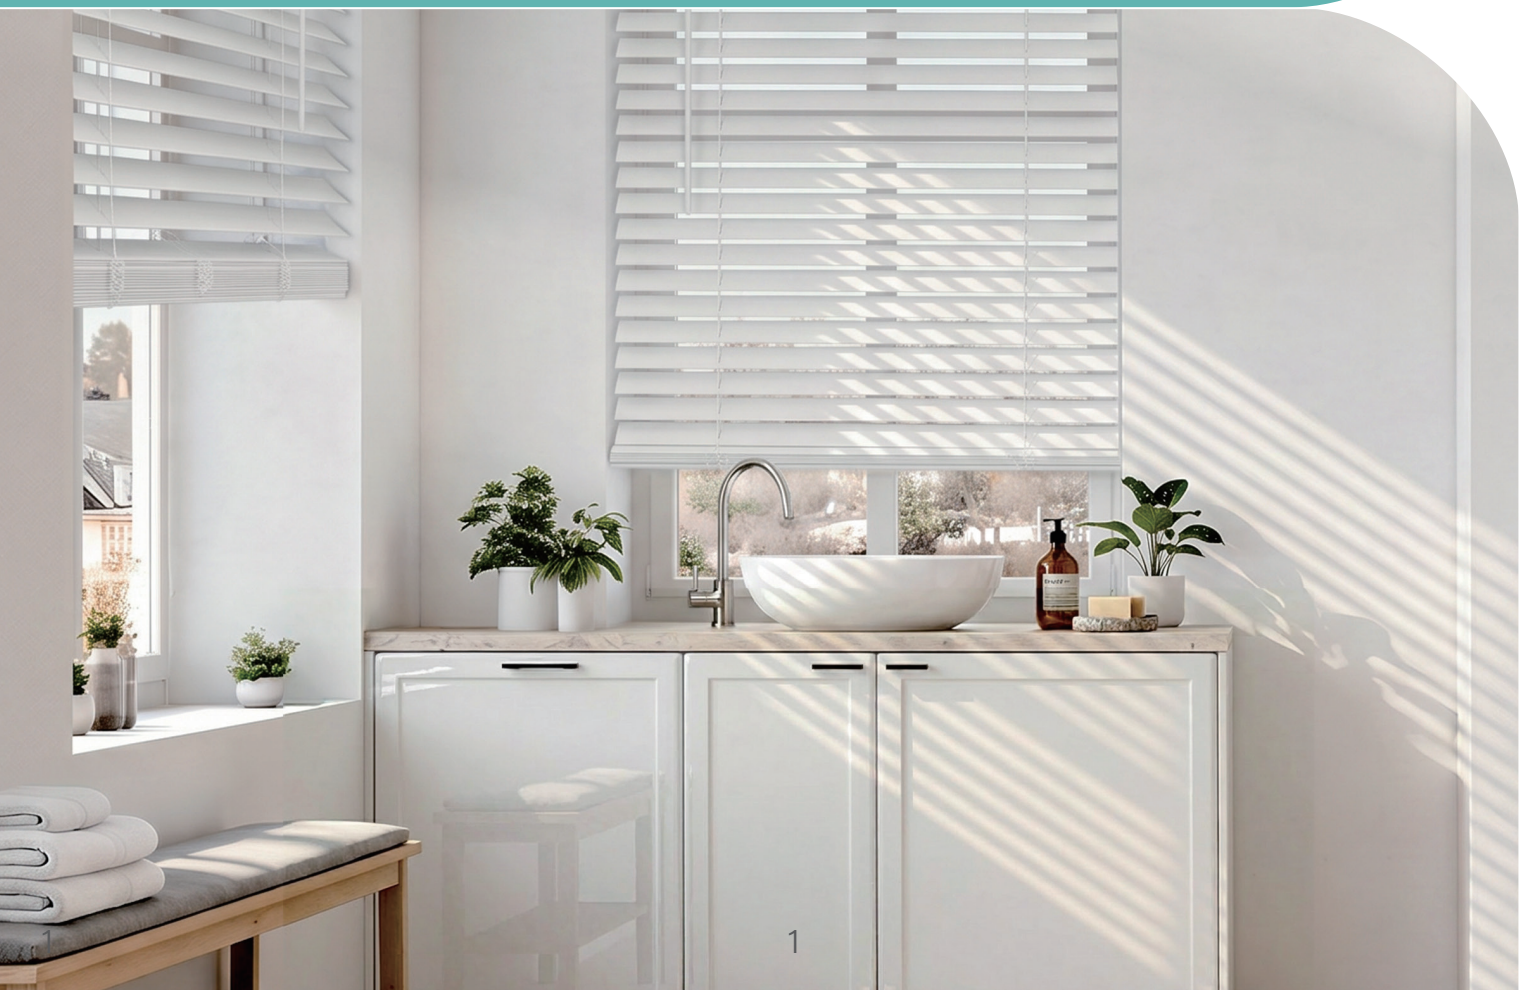
Room Darkening Faux Wood Blinds

Model No. QJ / QA

CERTIFIED BEST FOR KIDS™

PARENTS FOR LAB TESTED Mom APPROVED WINDOW BLIND SAFETY™

BLINDS



Product Introduction

Faux wood blinds offer the look of real wood with the added benefits of durable, low-maintenance PVC construction. They provide flexible control of light and privacy, while performing reliably in humid environments like kitchens and bathrooms.
The cordless lift system ensures smooth, safe, and easy everyday operation. With multiple size options and flexible installation, they are a practical solution for both residential and light commercial spaces.

SPECIFICATIONS

Product Name	2" Cordless Room Darkening Faux Wood Blinds
Model No.	QJ / QA
Slat Width	2 inch
Width Range	23" - 72" (Customized available)
Length Range	48"/ 64"/ 72"/ 84" (Customized available)
Color	White, Dark oak, Smooth white (Customized available)
Slat Material	Room Darkening, PVC
Control	Wand Control / Cordless Lift System
Mount Type	Inside & Outside Mount
Mounting Bracket	Screw Mount
Width Deduction	¼", ½" or Customized per Requirement
Certification	Child Safe, Cordless
CPSIA Total Lead Content	Compliant
UL 94 Flammability	HF-1 Rated
Small Parts Safety Tested	Pass

Features & Benefits

Premium Faux Wood Construction

- Made with durable PVC material, offering a wood-like appearance with consistent quality.
- Provides a stable structure with easy maintenance for long-term use.

Reliable Light Control & Privacy

- 2-inch slats allow flexible adjustment for light control and privacy.
- Supports room-darkening performance for a more comfortable indoor environment.

Cordless Safety & Easy Operation

- Cordless lift design supports safe use in environments with children and pets.
- Smooth operation allows easy adjustment by raising or lowering the bottom rail.

Moisture-Resistant & Versatile Application

- Moisture-resistant material suitable for kitchens, bathrooms, and humid areas.
- Designed for residential and light commercial spaces with flexible mounting options.

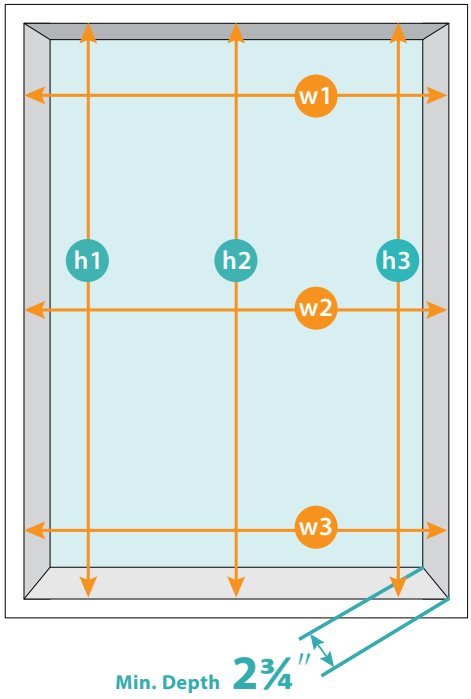
Measurement Guide



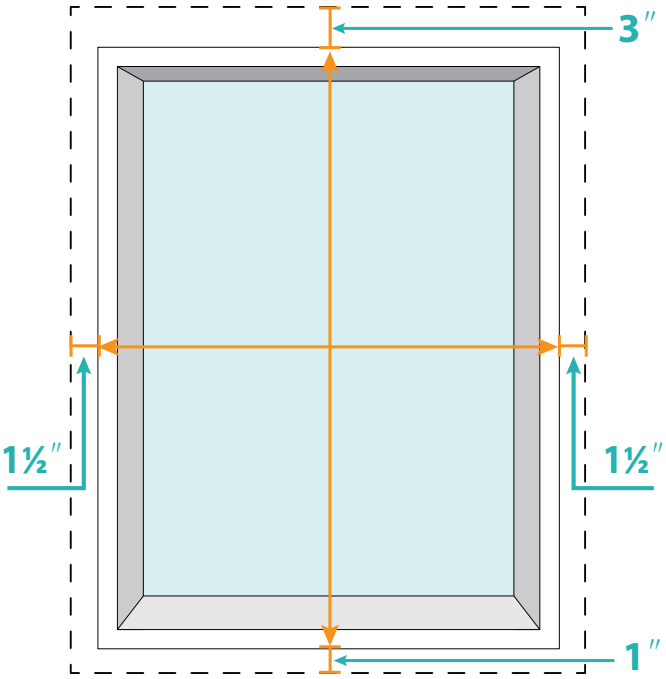
INSIDE MOUNT

Width: **Smallest** of inside framed width (w1, w2, w3). Round down the nearest width when ordering.

Largest of inside framed height (h1, h2, h3). Choose the same or larger height when ordering.

Height: **Largest** of inside framed height (h1, h2, h3). Choose the height that matches or exceeds the window length.

Depth: **2 ¾″** required. Ensure no obstacles.



OUTSIDE MOUNT

Width: Include window trim and **add 1½″ on each side**. Round up the nearest width when ordering.

Height: Include window trim and **add 3″ on top, 1″ on the bottom**. Choose the height that matches or exceeds the window length.

Minimum **3″** flat surface above the window required.

Blinds Actual Width is ½ shorter than width size ordered to account for mounting brackets allowances.
For example: order 23” width, you’ll receive 22½” width.
