# High Pile Plush

Plush Comfort
Rich Texture

**Plush & Fluffy Texture**
High-pile construction creates a fuller, fluffier surface with a soft hand feel and visibly richer textile dimension.

**Cozy Warmth**
Dense plush fibers provide enhanced warmth and comfort, making the material ideal for cozy seasonal home textile collections.

**Rich Visual Dimension**
Longer pile adds depth and volume, giving blankets and home accessories a fuller, more substantial appearance.

**Comfort-Focused Design**
Soft tactile comfort and a substantial feel make this material suitable for premium comfort-driven home collections.

## Care Instructions

**Machine Wash-Gentle & Protective**
Gentle Cycle: Wash in cold water using a gentle cycle.

**Low Heat Tumble Dry**
Tumble dry on low heat to help maintain the plush texture.

**Do Not Bleach**
Avoid bleach or harsh cleaning agents.

**Do Not Iron**
Direct heat may flatten or damage the pile.

**Care Tips**
Avoid excessive heat and friction to help maintain the fluffy pile. Gently shake after drying to restore loft.

# Made with Care. Built on Responsibility.

We believe better home textiles begin with responsible choices.

From material selection to manufacturing, we continuously pursue solutions that balance quality, comfort, performance, and environmental responsibility. Through recycled material options, responsible production practices, and recognized textile standards, we help our partners develop products designed for today's evolving market.

OEKO TEX® STANDARD 100

Products carrying the OEKO-TEX® STANDARD 100 label have been tested for harmful substances according to established criteria. The certification covers textile components and helps ensure that certified products meet strict requirements for human health and product safety.

RECYCLED 100 claim standard ©TextileExchange

The Recycled Claim Standard (RCS) verifies the presence and amount of recycled material in a product. It provides chain-of-custody requirements to track certified recycled materials from their source through the supply chain, supporting greater transparency in recycled material claims.

FSC

FSC® certification supports the responsible sourcing of forest-based materials. Certified wood, paper, and pulp come from responsibly managed forests and other controlled sources, helping promote responsible forest management while supporting environmental, social, and economic considerations.

Global Recycled Standard ©TextileExchange

The Global Recycled Standard (GRS) verifies recycled content and tracks certified materials throughout the supply chain. It also includes requirements related to responsible production practices, including environmental management, social criteria, and restrictions on the use of certain chemicals.
